

### **III. REMARKS**

In the parent application, Serial No. 10/138,974 filed 05/01/2002, claims 1-20 were originally presented. The office sought restriction of the claims as follows:

- I. Claims 1-14 drawn to the system;
- II. Claims 15-17 drawn to the method of treating pond water; and
- III. Claims 18-20 drawn to a disbursing module and stack.

Claims 1-14 were elected and subsequently allowed.

In this amendment, claims 1-14 have been cancelled.

Original claims 15-20 remain.

Claim 17 was amended to specifically include a conduit.

Claim 18 was amended to cover an inadvertent reference to a pond.

New claims 21-31, which are drawn to the module (i.e., member) and stack are also presented. The original disclosure supports these claims.

**IV. CONCLUSION**

Examination of this application is sought and allowance of the original and newly presented claims is requested.
